PRESS RELEASE

For immediate release

## EXPANSION AT TRECESSON SECURES KNICKS' LAND POSITION

**Val-d'Or, Quebec, October 27, 2011, – Knick Exploration Inc. (TSX-V: KNX)** is pleased to report that it has **expanded** its **Trecesson Gold Property Project** land position in the **Amos-Val d'Or Mining Camp** by map staking and optioning of ground.

The **original project area** consisted of 5 lots covering **212 hectares (887 acres)** (press release Feb. 12, 2010, Knick Exploration Acquires Gold property, Quebec).

The project now covers approximately **5,454 hectares** (13,477 acres, 54.54 square kilometres) as a **single contiguous claim block** securing the companies position in this **“gold-base metal” camp**. The **Trecesson Gold Property** covers ground within a granitic intrusion with **significant fracturing of substantial extent**. These “fractures” structures appear to be **conduits for metallic mineralizing fluids, gold, silver, copper, lead and zinc**. At present the **regional geology indicates** potential for various types of **economic deposits** within the area. **Royal Nickel-RNX, Pershimco-PRO, Globex Mining-GMX, Adventure Gold-AGE** are among **savvy juniors in the area** which **recognize the regional significance** of the **metalliferous volcanic and intrusive rocks** of this **newly developing sector** of the **Amos-Val d'Or Mining Camp**.

The **property located** north-north west of Val d 'Or lies **within an 80km radius of 8 mills**.
